The image shows a screenshot of a Windows-style dialog box titled "Backup Wizard". The main text inside the box asks, "Which Backup Options would you like to use? You can customize the backup job here." Below this, there are two sections. The first section, "Backup Methods:", has two radio button options. The first option is "Full backup (recommended)" with the description "Backup everything you have selected." The second option is "Incremental backup" with the description "Backup only the files that are new or have changed since a previous backup." The second section, "Which options would you like to apply to the backup?", has two unchecked checkbox options: "Backup with verification (Compare media content to disk after backup.)" and "Compress backup data on the tape." Below these is a checkbox labeled "Check to provide security information for the Machine you choose as the Source." which is checked. At the bottom of the dialog box are three buttons: "< Back", "Next >", and "Cancel".

Backup Wizard

Which Backup Options would you like to use?
You can customize the backup job here.
